

Together for the Future

An Invitation

Together for the Future is an invitation to open-hearted generosity—generosity that will carry the Cambridge Insight Meditation Center into a strong future, and put daily-life meditation teachings within reach of everyone who needs them, now and for generations to come. The world needs more compassion. This is a chance to help nurture it.

“Together, we open to the deepest possibilities of the Dharma—we nourish and share the teachings that free the heart.”

— Narayan Helen Liebenson, Guiding Teacher

Support the Power of Practice, Together

Through the **Together for the Future** fundraising initiative, the CIMC community is coming together to make a timely, strategic investment: \$1.2 million by 2028, beyond annual appeal and membership support.

Three Priorities to Increase Access to *Daily-Life Meditation*

This is a pivotal moment for CIMC, and the world needs what this community offers. Your generosity will strengthen CIMC to meet that need through:

1. Responsive, accessible programs

Thousands of people will find their way to life-changing practice, creating ripples of compassion that reach far beyond our walls. We'll create new programs in person and online that meet this turbulent moment, open the heart, and support wise action.

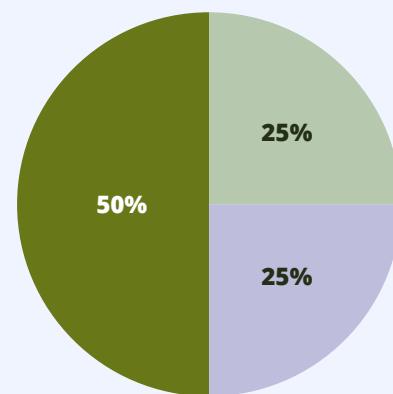

2. A new generation of practitioners

Hundreds of people will discover insight meditation for the first time and find a true home in an inclusive, thriving community. We'll reach younger and more diverse practitioners, expand support for beginners, and learn, continually, what it takes to belong.

3. The next generation of Dharma teachers

Your gift will help carry a 2,600-year wisdom tradition forward by supporting Matthew Hepburn as CIMC's new guiding teacher, alongside guiding teachers Narayan Helen Liebenson and Larry Rosenberg, and resident teacher Madeline Klyne. It will also help mentor emerging teachers and community leaders, keeping these teachings deep and alive for this generation and the next.

\$1.2 Million for 3 Priorities

■ Responsive Programs
■ New Generation of Practitioners
■ Next Generation of Teachers

Take Action, Together

A gift to **Together for the Future** keeps CIMC strong, responsive, and accessible—for the people who rely on it now, and the ones who will need it next. Members and donors already provide essential support for CIMC's day-to-day operations. This moment asks for more, because there is more at stake: a thriving lineage and a more compassionate world, ready for whoever seeks it.

Will you join us in reaching our \$1.2 million goal, and help carry forward the power and wisdom of practicing together?
