CrowdPass is Easy to Use

You simply register and upload a photo of your vaccination card. CrowdPass will send you a verification email. After you respond to it, you will receive an acknowledgement email from CrowdPass indicating that they are reviewing your data. This process may take a couple of days.

Once approved, CrowdPass will send an email directly to the CIMC office letting us know; this is all we need. You will also receive a confirmation email. (Please note: CIMC does not use the QR code generated automatically by CrowdPass.)

We look forward to welcoming you back to our Center!
